## Our Technology

01

### No Alcohol/No Surfactants/ No Synthetic Antimicrobials

We developed unique technology for safe oral care removing ingredients that can cause bad breath, cavity, and/or gum disease.

02

### Patent for Bad Breath Remedy

Our patented formula of chitosan and green tea extract mixture adhere to and remove oral protein waste thereby effectively improving bad breath

03

### Can be manufactured in Various Packaging Options

Mouthwash products can come in disposable pouches, spray bottles, dispensers, as well as bottled containers to meet the customers’ needs.

04

### Largest Production Capacity in Asia

Domestic market share for disposable mouthwash market exceeds 70%. About 100 deals of OEM/ODM history in nine countries and still growing thanks to the largest production capacity in Asia.
